

City of Highland

Weekly Report

September 10, 2021

ADMINISTRATION

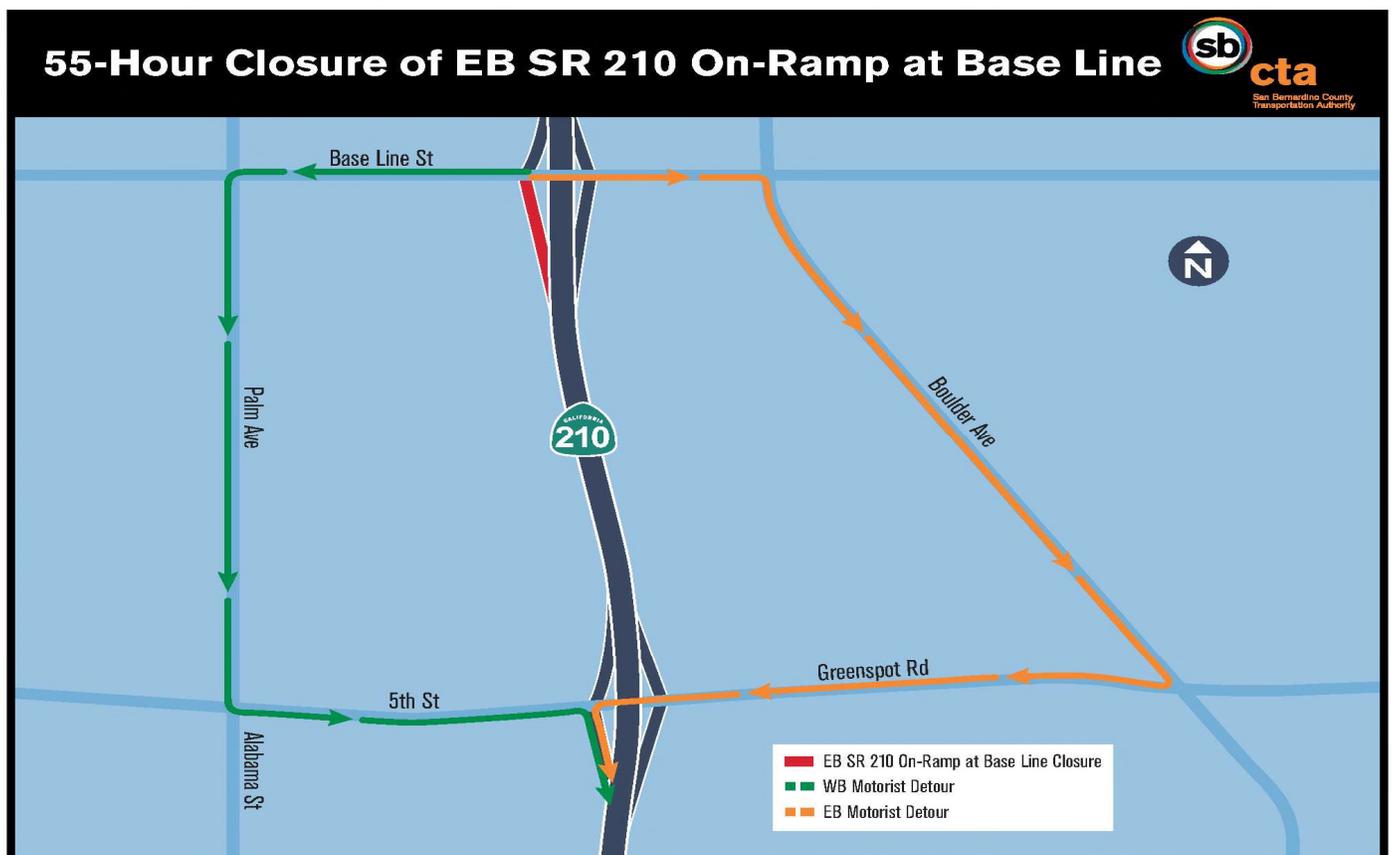

The SR 210/ Base Line interchange work has a planned 55-Hour full closure starting on Friday, September 10th beginning at 10:00 p.m. thru Monday, September 13th at 5:00 a.m. as noted below.

The work involved includes a concrete cross gutter, paving, and restriping on the east bound (EB) on-ramp at Base Line.

The detour will be the standard detour used during night closures of the ramps:

- East bound (EB) Base Line, turn right onto Boulder Avenue, right on Greenspot Road to SR 210.
- West bound (WB) Base Line, turn left onto Palm Avenue, left on 5th Street to SR 210.

Volunteer Services

HIGHLAND IMPROVEMENT TEAM

The Highland Improvement Team (HIT) has dedicated our September project to support Operation Gratitude for the past several years. Typically, HIT members get together to write letters that are included in care packages sent to Deployed Troops, National Guardsmen, First Responders, and Emergency Medical Personnel.

Unfortunately, we are unable to meet this September. In lieu of meeting in person, the Highland Improvement Team invites you to support Operation Gratitude's Virtual Volunteerism Program by contributing to their digital postcard platform goal.

In the month leading up to the **20th anniversary of the terrorist attacks on 9/11**, Operation Gratitude will call on thousands of Americans to serve — honoring the fallen and recognizing the sacrifices of our men and women in uniform with the goal of impacting up to 50,000 first responders and deployed troops during the days leading to and on 9/11.

Activating their network of 17,000 community-based groups representing one million volunteers nationwide, Operation Gratitude and partners, will express the gratitude of the American people through community-wide service projects in New York City, Boston, Atlanta, Los Angeles, Philadelphia, and Washington D.C.

In addition to these in-person community-building events, Operation Gratitude will challenge every American to give back in a hands-on way through their **digital postcard platform**, with an ambitious goal of **200,000 letters of gratitude on 9/11, a National Day of Service**.

Follow this link to help Operation Gratitude reach their goal of 200,000 digital letters!
<https://www.operationgratitude.com/9-11-digital-letter-writing/>

For more information, contact Volunteer Services at 909-864-6861, ext. 203

IMPORTANT PUBLIC INFORMATION

The Governor released a one-stop website (<https://covid19.ca.gov/>) for COVID-19 resources. This is a substantial source of information including unemployment and paid sick leave, along with small business assistance (information specifically to be added about this tomorrow on the website).

These following specific items — Apply for Unemployment, Apply for Disability Benefits or Apply for Paid Family Leave - may be of interest to you on the following website https://www.edd.ca.gov/about_edd/coronavirus-2019/faqs.htm.

Loan guidance for small business: <https://www.sba.gov/page/coronavirus-covid-19-small-business-guidance-loan-resources>

As a reminder, the CDC's official Coronavirus website is the best source for up-to-date information and guidance. www.coronavirus.gov

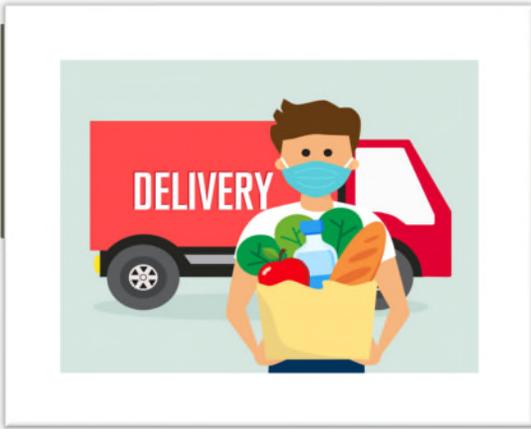

The County of San Bernardino has established a COVID-19 Public Information Line. The line is in operation from 9:00am to 8:00pm, Monday to Friday. The phone number is (909) 387-3911. Please note that this line is for Public Information Only. Please contact your Health Care Provider for medical related questions.

For further information and updates please visit: <https://sbccovid19.com/>

The San Bernardino County Department of Public Health (DPH) continues to work with the Centers for Disease Control and Prevention (CDC) and the California Department of Public Health (CDPH) to respond to reports of Novel Coronavirus 2019 (COVID-19) as the situation is quickly evolving.

Residents of San Bernardino are encouraged to stay home as much as possible while only participating in essential activities, such as critical work functions and shopping for necessities. We know these measures are challenging, but social distancing will help to protect all of our communities. We encourage older adults and those with chronic medical conditions to take additional precautions to avoid getting sick with the disease.

Please visit <http://wp.sbcounty.gov/dph/coronavirus/> for additional updates and information.

Volunteer Services

HIGHLAND GROCERY DELIVERY PROGRAM

Are you a Senior Highland Resident? Would you like to skip the grocery store lines and have your groceries delivered straight to your doorstep? If so, Highland's Senior **Grocery Delivery Service Program** may be just what you need. This program was developed to assist Highland's senior citizen residents by paying home delivery fees, keeping you safe at home during the pandemic. This program will pay for an annual membership to Instacart Express for you to receive free delivery service for a year. You shop online, pay for your groceries and the delivery fee is on us.

It's easy to apply. Applicants must meet a few income requirements to be eligible. Contact Volunteer Services today to find out if you qualify!

INSTACART UPDATE...Instacart announced that they have partnered with Aldi grocery to accept EBT SNAP online payment.

Using EBT SNAP on Instacart: easy as 1-2-3!

1. Add your EBT SNAP card

Go to your Account Settings to add your EBT SNAP card as a payment method.

2. Shop for eligible items

Many staple foods and non-alcoholic beverages are eligible for EBT SNAP. These products are marked with an 'EBT' label when browsing at participating stores.

3. Check out with EBT SNAP

At checkout, make sure EBT SNAP is selected as a payment method. You will be able to select the amount paid by EBT SNAP.

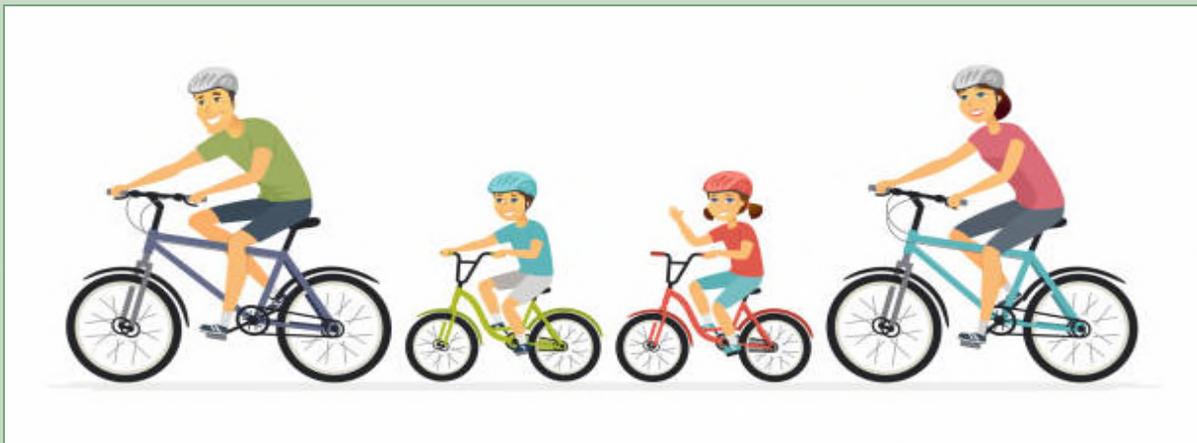

For more information and to sign up please contact Denise Moreno at 909-864-6861, ext. 203, or by email dmoreno@cityofhighland.org

BIKE SAFELY: TIPS ON THE GO

- ◆ Always ride in the same direction as traffic (CVC 21200).
- ◆ Stop at all stop signs and red lights. All traffic laws and regulations apply to people biking as well as motorists (CVC 21200).
- ◆ Be predictable. Signal your intentions and only change lanes when safe to do so (CVC 22111).
- ◆ When riding at night, use front and back lights, and reflectors to the sides to make yourself visible.
- ◆ Helmets reduce your chance of brain injuries in case of a crash. Children under 18 on a bicycle are required to wear helmets by state law (CVC 21212).
- ◆ People biking may not park their bicycle on a bike path (CVC 21211) or sidewalk (CVC 21206) in a way that impedes the path of people biking or walking.
- ◆ People biking should ride as far to the right as safe but can take a lane if the road is too narrow, or avoiding hazards (potholes, parked cars, debris) or preparing for left turn (CVC 21202).
- ◆ People biking must use a bike lane if going slower than traffic but can leave the bike lane to avoid obstructions and hazards or to make a left turn (CVC 21208).
- ◆ Individual cities and counties can decide if people biking can ride on sidewalks (CVC 21206). Slow down for people on sidewalks, crosswalks, or bike paths.
- ◆ Low Speed (less than 20 mph) electric bicycles are allowed to use all bikeways unless specifically prohibited (CVC 21213). Mid speed (less than 28 MPH) bikes are prohibited on bike paths/trails.

Information Courtesy of SCAG – Go Human Campaign: <https://scag.ca.gov/go-human>. Go Human is a community outreach and advertising campaign with the goals of reducing traffic collisions in Southern California and encouraging people to walk and bike more. We hope to create safer and healthier cities through education, advocacy, information sharing and events that help residents re-envision their neighborhoods. Go Human is funded by grants from the California Office of Traffic Safety, the California Active Transportation Program, the Mobile Source Air Pollution Reduction Review Committee and from our sponsors.

ADMINISTRATION

SEPTEMBER IS NATIONAL PREPAREDNESS MONTH

National Preparedness Month (NPM) is an observance each September to raise awareness about the importance of preparing for disasters and emergencies that could happen at any time. The 2021 theme is **“Prepare to Protect. Preparing for disasters is protecting everyone you love.”** Gather supplies that will last for several days after a disaster for everyone living in your home. Don’t forget to consider the unique needs each person or pet may have in case you have to evacuate quickly. Update your kits and supplies based on recommendations by the Centers for Disease Control.

Build A Kit

After an emergency, you may need to survive on your own for several days. Being prepared means having your own food, water, and other supplies to last for several days. A disaster supplies kit is a collection of basic items your household may need in the event of an emergency. Make sure your emergency kit is stocked with the items on the checklist below. Download a printable version to take with you to the store. Once you look at the basic items consider what unique needs your family might have, such as supplies for pets or seniors.

Basic Disaster Supplies Kit

To assemble your kit store items in airtight plastic bags and put your entire disaster supplies kit in one or two easy-to-carry containers such as plastic bins or a duffel bag. A basic emergency supply kit could include the following recommended items:

- √ Water (one gallon per person per day for several days, for drinking and sanitation)
- √ Food (at least a three-day supply of non-perishable food)
- √ Battery-powered or hand crank radio and a NOAA Weather Radio with tone alert
- √ Flashlight with extra batteries
- √ First aid kit
- √ Whistle to signal for help
- √ Dust mask to help filter contaminated air
- √ Plastic sheeting and duct tape to shelter in place
- √ Moist towelettes, garbage bags and plastic ties for personal sanitation
- √ Wrench or pliers to turn off utilities
- √ Manual can opener for food
- √ Local maps
- √ Cell phone with chargers and a backup battery

Public Services

Stormwater Pollution

What is Stormwater Pollution?

When it rains, some of the rainwater soaks into the ground, and part of it flows over the ground and directly into creeks, streams or rivers. This water that runs off into the river is called runoff, or sometimes stormwater runoff. Clever, huh?

Sometimes this stormwater runoff gets polluted. Pollution is anything that harms natural resources, whether it is air, soil, or in this case, water. Sometimes the pollution is something you can see, like trash floating on top of the water. Other times you can't see the pollution at all, like when motor oil from a car washes into a nearby creek. Polluted runoff is the number one cause of water pollution in the United States. So, who is to blame? Who is making the water that we drink and swim in dirty? We all are... do your part, one drop at a time.

Why is stormwater pollution a concern?

It is of concern for two main issues: one related to the volume and timing of runoff water and the other related to potential contaminants that the water is carrying from human and animal activities. These contaminants are picked up as water from a storm or garden hoses and sprinklers drain from streets, parking lots and lawns and enter the system through our catch basins and storm drains. From there, they are transferred straight to rivers and streams untreated.

Anything that is dumped or dropped on the ground or in the gutter contributes to stormwater pollution. Much of it is not biodegradable and is harmful to marine life and cleanliness of our water that we swim in and drink.

Is stormwater treated before it reaches the river?

No! Stormwater systems flow directly into the rivers, lakes and streams. The cost of treating stormwater would be so high that it would exceed available resources.

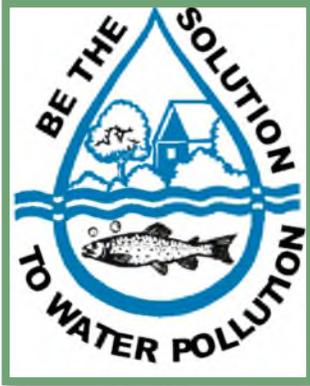

Is there a difference between a storm drain and a sewer drain?

Yes! They are two completely separate drainage systems. The sewer system takes all household wastewater from toilets, showers and sinks and routes it through your plumbing system and directs it to a treatment plant. The storm drain is intended to route rainwater quickly off the streets during a heavy storm. Unfortunately, it takes all the runoff along with it. Chemicals, trash, debris from lawns, parking lots and streets, either intentionally or accidentally spilled, goes straight into our waterways.

The Effects of Pollution

Polluted stormwater runoff can have many adverse effects on plants, fish, animals and people. Sediment can cloud the water and make it difficult or impossible for aquatic plants to grow. Sediment also can destroy aquatic habitats. Excess nutrients can cause algae blooms. When algae dies, they sink to the bottom and decompose in a process that removes oxygen from the water. Fish and other aquatic organisms can't exist in water with low dissolved oxygen levels.

Bacteria and other pathogens can wash into swimming areas and create health hazards, often making beach closures necessary. Debris – plastic bags, six-pack rings, bottles, and cigarette butts – washed into waterbodies can choke, suffocate, or disable aquatic life like ducks, fish, turtles, and birds. Household hazardous wastes like insecticides, pesticides, paint, solvents, used motor oil, and other auto fluids can poison aquatic life. Land animals and people can

become sick from eating diseased fish and shellfish or ingesting polluted water. Polluted stormwater often affects drinking water sources. This, in turn, can affect human health and increase drinking water treatment costs.

If you have any questions on what you can do to prevent storm water pollution, please contact Public Services Coordinator, Carlos Florez at 909-864-8732, ext. 271.

Blood Drive

Highland's next Blood Drive is on Monday, September 27, 2021, from 11am to 4pm at the Highland Police Station, 26985 Base Line.

Schedule your appointment to donate blood at Highland's September drive by contacting Volunteer Services at 909-864-6861 ext. 203 or by following this online link:

https://giftoflife.lstream.org/donor/schedules/drive_schedule/90684

Donors will receive a special "Count on Me" promotional item such as a beach towel, a baseball cap or a t-shirt for their selfless donation.

For questions and more information contact Volunteer Services at 909-864-6861, ext. 203.

Finance

Commercial Business License Application

There was one new Commercial Business for the week of 9/6/21 to 9/11/21

⇒ Empire Pizza located at 27967 Greenspot Rd, Suite 4

Public Services

REPETE WOULD LIKE YOU TO KNOW...

For Disposal of Large or Bulky Items

Burrtec now provides *four* residential curbside large or bulky item collections (maximum of 5 items per collection) during a 12-month period at no extra charge. Please call at least 24 hours in advance to schedule your bulky item pick up. Large or bulky items include: scrap metal, wood, old appliances, furniture, televisions, computer monitors, refrigerator or freezer, tree branches, mattresses, etc

Avoid Blue Barrel Contamination!

Contamination happens when non-recyclable items are mixed in with recyclables Items. Paper smeared with food or grease cannot be processed with clean paper and can ruin a newly made product if it is not caught before it goes to the factory. Too much contamination is the reason manufacturers reject tons of recyclable paper each year. Help Highland keep their recycling clean and free from trash and contamination. Doing so improves rates, quality of recyclables and lessens the amount of material going to the landfill.

Recyclable Items Include...

PLASTICS NO. 1-7

- Milk, juice, soda and water bottles
- Yogurt, dairy and margarine tubs
- Shampoo and conditioner bottles
- Detergent and fabric softener bottles
- Clean garden pots or flats
- Styrofoam food containers

ALUMINUM & TIN (labels may stay on)

- Steel or tin cans (e.g. tuna cans)
- Pin tins
- Aluminum foil
- Aluminum food & soda cans

MIXED PAPER & NEWSPAPER

- Newspaper (with Inserts)
- Magazines / Catalogs
- Junk mail (remove free samples)
- White & colored paper
- Brown paper bags
- Envelopes with plastic window
- Wrapping paper

CARDBOARD

- Cardboard
- Cardboard (soda / beverage carriers)
- Binboard (e.g. cereal boxes)
- Milk cartons

GLASS (remove lids from jar, labels may stay on)

- Glass bottle / jars (any color)
- Mason jars (any color)

Public Services

WILDFIRE PREPAREDNESS – MAKE A PLAN!

Now that you know how to prepare both your yard and your home for wildfire season, this third blog in our Wildfire Preparedness Series is all about creating an emergency plan! We hope you remain safe and unaffected by wildfires this season, but in the case that you do have to evacuate, it's important to be prepared.

Know When There is a Fire Near You

According to CalFire, you don't have to wait for an official evacuation order to leave. If you feel unsafe, you should evacuate immediately. Here are some ways you can stay up-to-date on wildfires near you:

- Sign up for text alerts on local wildfires from CalFire at <https://incidents.readyforwildfire.org/>.
- Here in San Bernardino County, the Fire Department uses a Telephone Emergency Notification System (also known as TENS) to send out critical updates to residents affected by an emergency. They currently use a database of landlines to send out alerts, but you can add your cell phone number to the system to get text alerts as well here at <http://www.sbcounty.gov/SBCFire/TENS/TENSContact.aspx>
- You can view the location and status of active wildfires all over California at <https://www.fire.ca.gov/incidents/>

Make an Evacuation Plan

Here are some items to plan for well ahead of when a wildfire may strike:

- Make plans with family or friends who you may be able to shelter with in the event of an evacuation. This is the safest option since public shelters have a higher risk of transmitting COVID-19.
- If you are unable to stay with family or friends, identify your nearest emergency shelter and follow its COVID-19 protocols to keep you and those around you healthy at: <https://www.redcross.org/get-help/disaster-relief-and-recovery-services/find-an-open-shelter.html>.
- Make sure everyone in your household knows the evacuation route and alternate evacuation routes.
- Share your evacuation plan with friends or family who live in a different area than you.

Find more information on planning an evacuation here at <https://www.ready.gov/evacuation>

Gather Supplies

If you do have to evacuate, you'll want to have everything you need ready to go! Here's a checklist of some crucial items you should have ready in your car or a travel bag:

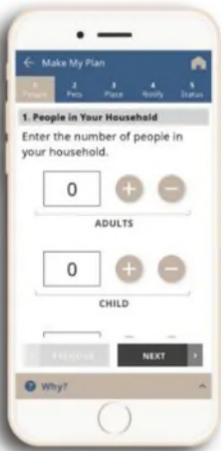

- Several day's supply of water (1 gallon per person per day)
- A 3-day supply of non-perishable food
- Battery-powered or hand-cranked radio
- Flashlight
- Extra batteries
- Whistle to signal for help
- Basic toiletries
- Dust mask/N95 mask
- Printed maps
- First aid kit

Find [FEMA's full emergency supply list](#) here.

Additional Resources

- You can use CalFire's online, step-by-step [Custom Wildfire Preparedness Plan](#) tool to make an emergency plan best suited for you.
- Download the [San Bernardino Community Preparedness App](#) on your phone to receive important news, live information on evacuation routes and shelters, and other preparedness resources.
- CalFire provides a [Personal Wildfire Action Plan](#) worksheet.
- Ready.gov has a [resource for preparing your car](#) for emergencies and staying safe in your car during evacuations.

For more information, please contact Public Services Coordinator, Carlos Florez at 909-864-8732, ext. 271. Article courtesy of sbcountystormwater.org and Angie Lee, SGA Marketing

Public Services

PREPARING YOUR HOME FOR WILDFIRE SEASON

With San Bernardino County currently experiencing severe to exceptional drought, conditions are ripe for wildfires. Because of this, we want to provide you with the information you need to stay safe this wildfire season. We will be sharing some tips on how to protect your home.

How Homes Catch Fire

According to CalFire, there are three ways your home could be exposed to wildfire. It could:

- Ignite from direct flames
- Ignite due to radiant heat from materials burning nearby, or
- Ignite from flying embers. Flying embers can light structures on fire from up to a mile away and are the most common way that homes are destroyed by wildfire

Tips for a Fire Ready Home

Here are some things you can do to make your house more fire resistant:

- Keep rain gutters clear to prevent dry debris from building up.
- Cover chimneys and stovepipe outlets with non-flammable screens.
- Keep all vents clear and move combustible materials away from vents both on the inside and outside of the house. Houses commonly ignite when embers enter through the vents.
- If you have a deck, make sure both the surface and the space beneath are cleared of combustible materials.
- Caulk and plug gaps greater than 1/8-inch around exposed rafters to prevent embers from entering the house.
- As the roof is the part of the house most vulnerable to catching fire, consider re-roofing with non-combustible materials such as metal, clay, or tile.
- Even without direct contact with flames, heat from fire may cause windows to break. Consider installing dual-paned windows with one pane of tempered glass to strengthen your windows.

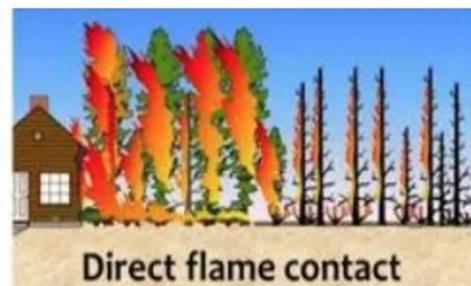

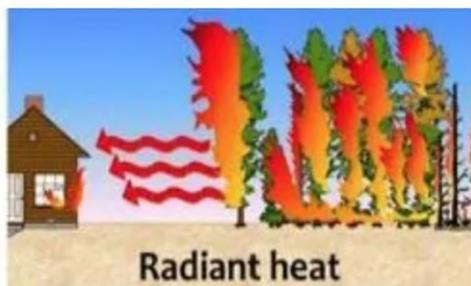

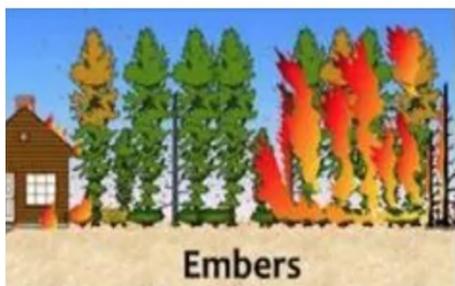

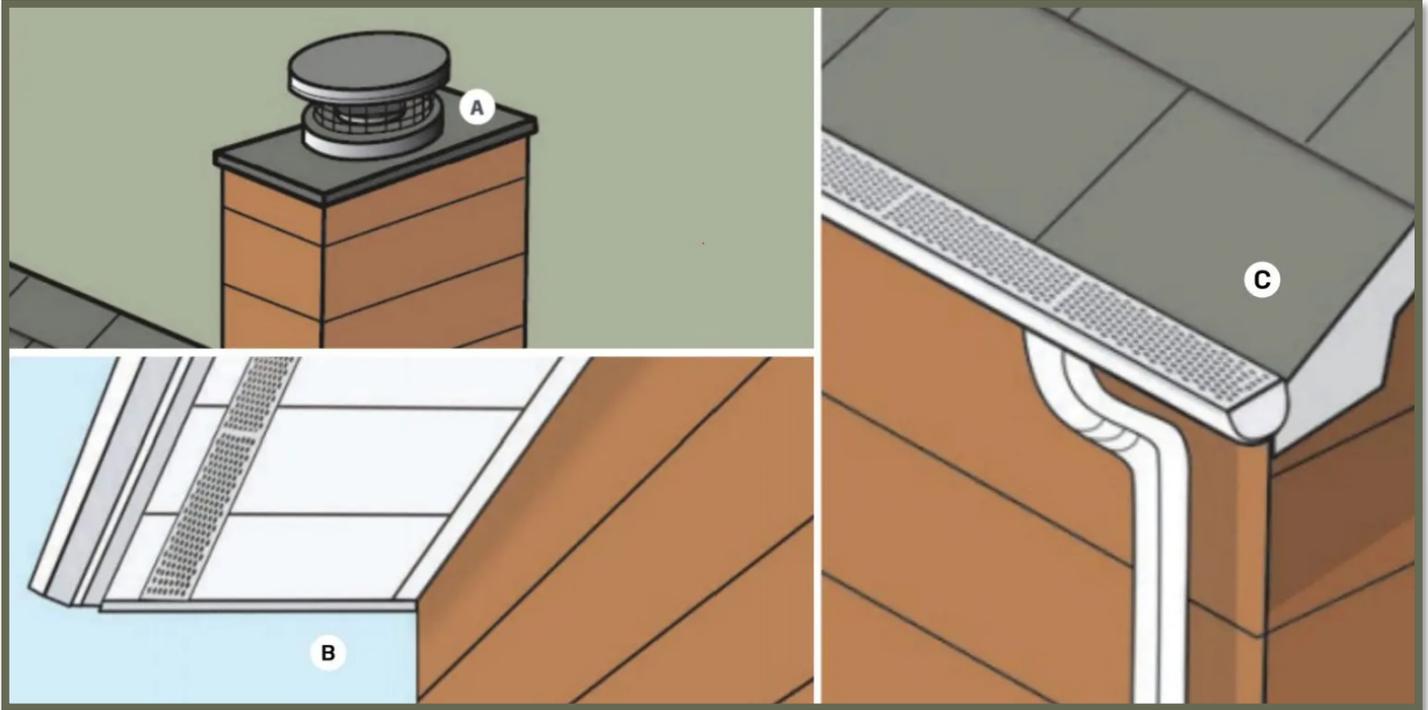

Photo source: University of California Cooperative Extension

A: Cover chimneys with non-flammable screens; B: Add enclosed eaves to help keep embers from entering the house; C: Install a non-flammable gutter to keep gutters clear of debris

Photo credit: Wildfire Home Retrofit Guide

Additional Resources for Preparing Your Home

Take a look at these resources for even more information on preparing your home for potential wildfires:

- **The University of California Cooperative Extension's Website** gives tips for preparing each part of your house for wildfire, from roof to eaves to walls
- **CalFire's Low-Cost Retrofit List** provides easy, low-cost steps for fire-safeing your home.
- **CalFire's Wildfire Home Retrofit Guide** offers a more detailed and in-depth guide preparing each part of your house.
- **Firewise USA's Factsheet** offers tips for preparing both your home and yard for wildfire, including how to ensure that first responders have access to your home in the case of an emergency.

What's YOUR Emergency Plan?

Unfortunately, no amount of preparation can give your home 100% protection from fire. Because of that, it's also important to have an emergency plan. Keep an eye out for our next post, which will be all about creating a wildfire emergency plan.

*For more information, please contact Public Services Coordinator, Carlos Florez at 909-864-8732, ext. 271.

Public Services

PREPARING YOUR YARD FOR WILDFIRE SEASON

S ummers are growing hotter and rainfall in California has reached historic lows, increasing the likelihood of wildfire. In fact, this year's wildfire season may be even worse than 2020's wildfire season which included California's largest recorded wildfire in history. Because of this, it's important more than ever to make sure that your yard is as wildfire-safe as possible. Your yard could be the last line of defense between your house and a wildfire. Here, we've pulled together some tips and resources to help you prepare your yard for wildfire season.

What is Defensible Space?

Defensible space is an area surrounding your property that's designed to slow or stop any approaching wildfires. This space also provides a space for firefighters to work in to protecting your home. You can create defensible space by making sure there's as little combustible material as possible near your house. If you live near uninhabited lands, it's recommended that you maintain at least 100 feet of defensible space on all sides of your property between you and wild vegetation.

Tips for a Fire-Ready Yard

Here are some tips for improving your yard's fire safety:

- Clear out as much dead vegetation as possible, especially within the 5 feet around your house.
- Make sure the area within 5 feet of your house is paved with non-combustible material.
- Prune tree limbs so that all branches are 6 to 10 feet above the ground.
- Don't let tree branches or shrubs touch the outside of your house.
- Move construction materials, trash, woodpiles, and other flammable materials at least 30 feet away from your house.
- Ensure there's enough space between shrubs and trees. Check out the National Fire Protection Association's website to learn how much space there should be.
- Keep your lawn green and hydrated and no more than 4 inches high.

This yard has a non-flammable, paved ground that is cleared of debris. It also utilizes fire-resistant plants and maintains a cleared space between vegetation and flammable structures. For more steps for making your yard fire-safe, visit CalFire's Ready for Wildfire site.

Fire-Resistant Gardening

Did you know that certain plants are naturally resistant to fire? Although no plants are 100 percent fireproof, plants with high moisture that grow close to the ground, such as aloe and rockrose, can resist ignition. Hardwood trees such as maple and poplar are more fire resistant than conifers like pine and fir. Additionally, many plants and shrubs native to California have evolved to be both drought tolerant and fire resistant! Using these in your landscaping is another way to make your yard more fire safe.

From left to right: Red Monkey Flower, California Lilac, California Fuchsia. These plants are all drought-tolerant, native to California, and fire-resistant.

Get a Free Fire Safety Property Assessment!

You're not alone in your wildfire preparations! Many fire departments can do a free fire safety assessment of your home and property, either in-person or over the phone. You can contact your local fire station to see if this service is available to you. If so, they will walk you through an assessment checklist to help you identify ways you can make your property more fire safe.

With wildfire season upon us, it is extremely important to make sure our yards are as fire-safe and fuel-free as possible.

What are you doing this season to make sure your yard is wildfire resistant?

For more information, please contact :

Public Services Coordinator, Carlos Florez at 909-864-8732, ext. 271.

REPETE'S WISDOM OF THE WEEK

SB 1383; Short-Lived Climate Pollutants

In September 2016, Governor Brown signed into law SB 1383, establishing methane emissions reduction targets in a statewide effort to reduce emissions of short-lived climate pollutants (SLCP) in various sectors of California's economy. SB 1383 establishes targets to achieve a 50 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75 percent reduction by 2025.

Methane emissions resulting from the decomposition of organic waste in landfills are a significant source of greenhouse gas (GHG) emissions contributing to global climate change. Organic materials--including waste that can be readily prevented, recycled, or composted--account for a significant portion of California's overall waste stream. Food waste alone accounts for approximately 17-18 percent of total landfill disposal. Increasing food waste prevention, encouraging edible food rescue, and expanding the composting and in-vessel digestion of organic waste throughout the state will help reduce methane emissions from organic waste disposed of in California's landfills.

Timeline

- ◆ July 1, 2020 - CalRecycle begins analyzing the progress that the waste sector, state governments, and local governments have made in regard to achieving organic waste reduction targets for 2020 and 2025. Upon conclusion of this analysis, CalRecycle may include incentives or additional requirements in the regulations to facilitate progress toward achieving the organic disposal reduction targets.
- ◆ January 1, 2022 - CalRecycle's regulations to meet the organic waste reduction targets for 2020 and 2025 take effect and are enforceable on this date
- ◆ January 1, 2024 - CalRecycle may require local jurisdictions to impose penalties for non-compliance on regulated entities subject to their authority
- ◆ January 1, 2025 - By this date, the state must achieve a 75% reduction in the level of statewide disposal of organic waste from the 2014 level. In addition, not less than 20 percent of currently disposed edible food must be recovered for human consumption.

Compliance Resources

- ◆ [Burrtec Services](#)
Businesses can contact Burrtec Waste Industries Inc., (909) 889-1969 to add organics recycling services.
- ◆ [Local Food Bank Organizations/Resources](#)
capsbc.org/food-pantries ~ helpinghandspantry.org

Food Donation Guidelines

To ensure your donation meets industry standards, please verify the following:

- ◆ Donated food will be from an approved source such as a restaurant, hotel, food distributor, etc.
- ◆ Donated food from individuals should be uncooked and pre-packaged
- ◆ The organization receiving food has a public health permit. If the organization does not have a health permit, the food will need to be served and consumed immediately.
- ◆ Donated food adheres to proper temperature requirements. Cold foods are required to be stored at 41°F or below and hot foods should be stored 135°F or above.
- ◆ Donated food is free of any contamination

Building & Safety

The City of Highland is excited to announce the new Tesla Supercharger station!!

A new Electric Vehicle charging site has opened in the North East corner of San Manuel Village located at 27909 Highland Avenue in Highland, California. Eight (8) Tesla Superchargers are now added to the Tesla Supercharger Network. Each of the eight Superchargers can provide up to 250 Kilowatts of power. Both residents and visitors can stop by to recharge their vehicles in as little as 30 minutes. While charging, you can enjoy a bite to eat at a nearby restaurant, shopping, or to just stretch your legs on your journey.

**EFFECTIVE
JULY 1, 2021**

SAN BERNARDINO COUNTY RESIDENTS can safely dispose of their used SHARPS in a 2 gallon or smaller, heavy-duty, plastic container as an alternative to plastic bio-hazard sharps containers at participating Household Hazardous Waste Collection facilities.

Containers should only contain needles, lancets, and syringes with a needle attached that must be completely spent (no liquid remaining, including EpiPens).

HOW TO CREATE YOUR OWN CONTAINER:

- Place sharps into an Approved Sharps Container or 2 gallon or smaller heavy-duty plastic container
- Do not use food product containers
- Must have a screw-top and puncture resistant lid
- Made of thick plastic
- 2 gallons or less
- Leak-resistant
- Remain upright when standing
- Place printed Bio-Hazard Label on both sides
- When $\frac{3}{4}$ filled, secure lid, and tape the container closed

DO NOT USE FOR SHARPS:

Print **FREE** labels by visiting
Greensb.net

Preprinted labels are available at
HHW collection facilities

For more information and locations, call 1-800-Oily Cat (645-9228)
or visit **Greensb.net**

SAN BERNARDINO COUNTY FIRE – Household Hazardous Waste

Cómo desechar las agujas de forma segura

**EFFECTIVO EL
1 DE JULIO 2021**

LOS RESIDENTES DEL CONDADO DE SAN BERNARDINO pueden desechar de manera segura sus agujas usadas en un recipiente de plástico resistente de 2 galones, o más pequeño como alternativa a los recipientes de plástico para objetos punzantes con riesgo biológico en los Centros participantes de Colección para desechos peligrosos del hogar.

Los recipientes solo deben contener agujas, lancetas y jeringas con una aguja adjunta que debe gastarse por completo (Sin residuo líquido incluyendo los EpiPens).

COMO CREAR SU PROPIO CONTENEDOR:

- Coloque las agujas en un recipiente para objetos punzantes aprobado o en un recipiente de plástico resistente de 2 galones o más pequeño
- No utilice envases de productos para alimentos
- Debe tener una tapa de rosca y resistente a los pinchazos
- Hecho de plástico grueso
- 2 galones o menos
- Resistente a fugas
- Permanezca erguido cuando esté de pie
- Coloque la etiqueta impresa de peligro biológico en ambos lados
- Cuando esté lleno 3/4, cierre la tapa y pegue el recipiente con cinta adhesiva para mantener el contenedor cerrado

NO UTILIZAR PARA AGUJAS :

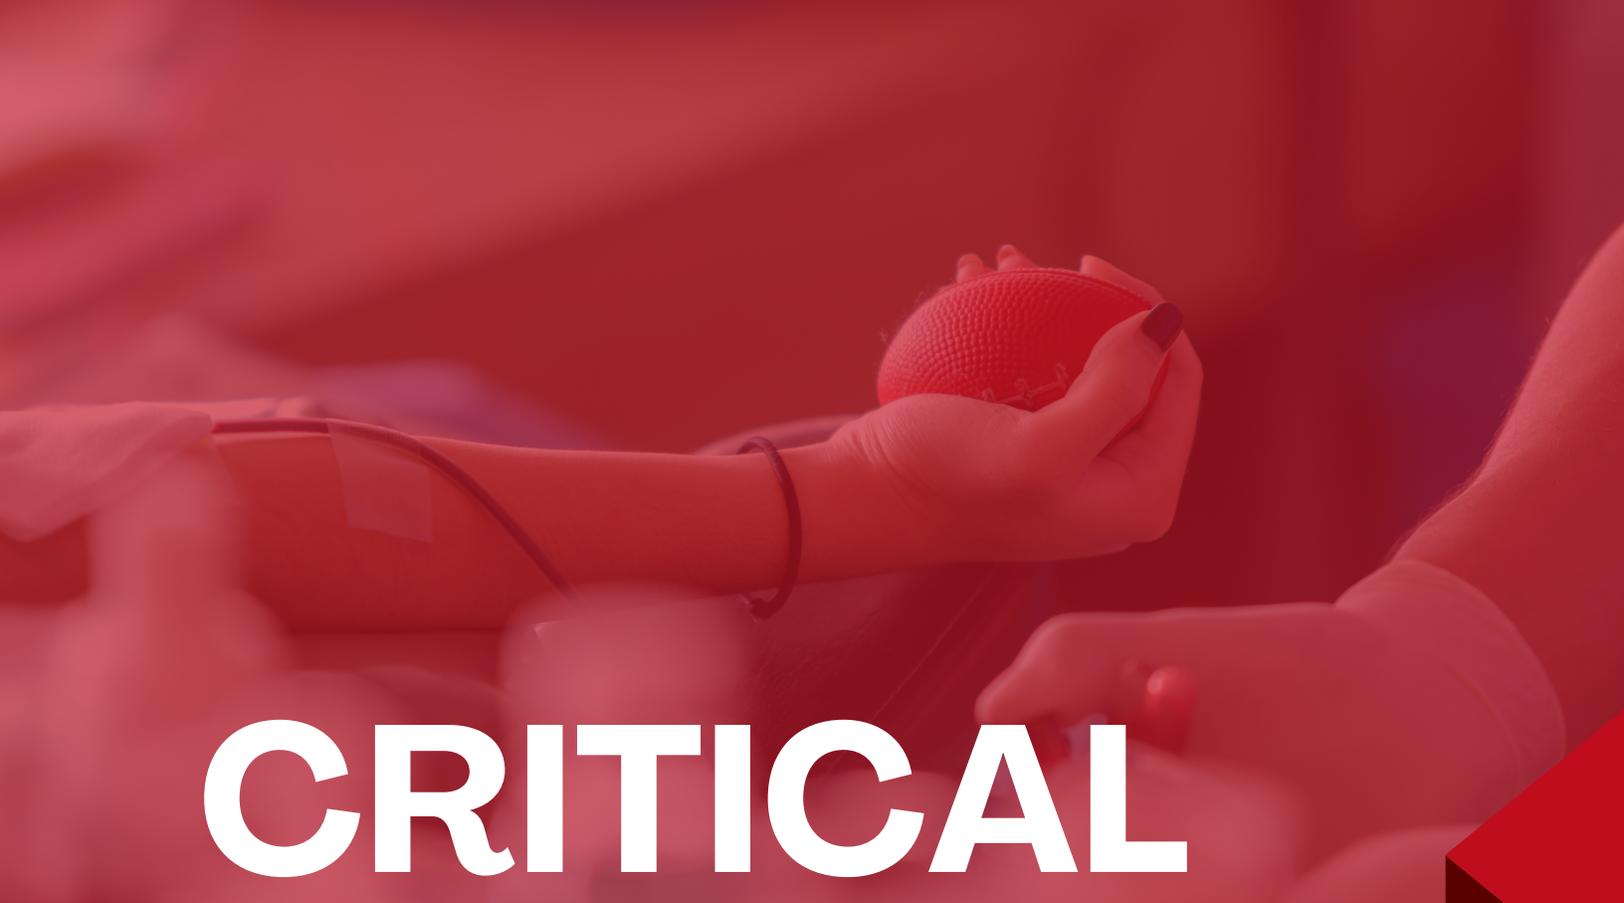

Para imprimir etiquetas
GRATIS visite Greensb.net

Las etiquetas preimpresas están disponibles en los Centros de Colección para desechos peligrosos del hogar

Para obtener más información y ubicaciones,
llame al 1-800-Oily Cat (645-9228) o visite Greensb.net

CRITICAL NEED!

LifeStream Blood Bank is experiencing a critical blood shortage.

Our community IS NOT prepared for a large-scale emergency or mass casualty event.

In addition, “everyday” blood needs are at risk of not being met.

To ensure help is there for our loved ones, friends and neighbors who need the “gift of life,” our community must reach out so blood can be on the shelves and at the ready.

DON'T DELAY – ACT NOW!

All blood types, all donation types are urgently needed.

Walk-ins are welcome. Call **800-879-4484** or visit **LStream.org** to set an appointment.
