CLEAN AIR DAY IS OCTOBER 4, 2023

Join the City of Highland and take your PLEDGE Today!!!

California suffers from some of the worst air quality in the country. Collectively we have the power to change the world and can choose to do so in ways that help, not harm, all Californians. Join us in challenging yourself to create clean air in Highland.

The following pledge includes the most common things an individual can do to clear the air. Select one or more you pledge to do on October 4th as well as other things you plan to do that are not listed here, too!

- Compost your food or engage in a composting program.
- Test drive or rent an electric vehicle.

Small Investments:

- Buy produce locally.

- Plant a tree.
- Change your car cabin air filter.
- Switch to using natural all-purpose cleaner only.
- Choose a greener energy rate.
- Plant a home garden or plant in a community garden.
- Donate to an eco-friendly non-profit organization.

Plan Ahead

- Install an air quality monitor at your home.
- Switch from an old gas-guzzler car to a hybrid or zero-emission vehicle.
- Install solar panels at your home.
- Replace gas-powered yard tools with electric- or hand-powered tools.
- Replace gas-powered appliances with electric appliances.
- Don't burn wood or switch to a cleaner non-wood burning stove.

Proper Lawn Watering & Yard Waste Disposal Practices

Never blow grass clippings or lawn waste into the storm sewer system!
Bag it for the licensed waste haulers to transport or compost the waste into mulch.

Water the lawn during the early hours of the morning or late in the evening to maximize water absorption.

Set automatic sprinklers to only water as much as needed.

Avoid over-spray from sprinkler heads onto impervious surfaces like concrete.

Proper Animal Waste Management & Disposal Practices

- Always pick up pet waste
- Carry disposable bags on your walk
- Throw away pet waste
- Encourage others to pick up pet waste

Failure to pick up pet waste allows it to be carried by rainwater directly into our local water bodies

Improper disposal can also allow bacteria to wash into receiving waters

FAQs

Residential Food Waste Recycling Program

Am I required to participate?

Yes. This is a California law that requires all residents, multi-family tenants, and commercial businesses to participate in food waste recycling in order to comply with Senate Bill 1383.

Will plastic bags be supplied?

Customers will be required to use their own bags. Bags do not need to be compostable or biodegradable.

What is the benefit of recycling food waste?

Your recycling efforts contribute to the reduction of greenhouse gas emissions in landfilled organic waste. This includes methane, a greenhouse gas 80 times more potent than carbon dioxide.

I already backyard compost, do I have to participate?

We encourage you to continue backyard composting. Organic items not suitable for backyard compost can be recycled through this program.

Can I use my garbage disposal instead?

No need to change your current garbage disposal use. Food currently being discarded in your trash barrel should now be bagged and placed in your green waste barrel.

What items are acceptable?

Fruits, vegetables, meats, seafood, dairy, eggshells, bread, food scraps, food soiled paper, plate scrapings, and expired food.

What items are not acceptable?

Trash, styrofoam, liquids, glass, plastic, metal, diapers, pet waste, electronic waste, and hazardous waste.
