HIGHLAND IMPROVEMENT TEAM

VOLUNTEERS AND PROJECTS NEEDED

The Highland Improvement Team (HIT) is recruiting volunteers and seeking clean-up sites! Now is your chance to be part of this excellent group of dedicated community volunteers. Our mission is to improve the overall environment of our city for all residents and businesses. Join us as we beautify our community. Get involved today and sign up as Highland's newest volunteer!

Highland Improvement Team projects are scheduled on the first Saturday of each month. Projects vary from month to month but can include:

- Residential yard cleanups for senior residents (our #1 priority)
- Residential garage cleanouts for senior residents
- Graffiti abatement
- Litter pick-up
- Park cleanups
- Special events and many more!

The next opportunity to join us is on Saturday, November 4, 2023, for a community litter cleanup project from 8AM to 12PM. Many hands make light work, and we'd love to have you join us!

Please contact Volunteer Services to sign up or for more information at 909-864-6861, extension 203.

Medication Education & Disposal

Safely Dispose of Sharps

Safely disposing of home-generated used sharps is important. Sharps that are not disposed of safely may cause injury.

What Should You Do With Your Sharps?

Sharps Disposal

Accepted: **Sharps such as hypodermic needles, pen needles, intravenous needles, lancets, and other** devices that are used to penetrate the skin for the delivery of medications, contained in U.S. Food and Drug Administration-cleared sharps containers. Please separate and remove any items that are not accepted before disposing.

Not Accepted: Controlled substances (such as opioids), unwanted medicine separate from sharps, batteries, illicit or illegal drugs, and biologics (such as insulin).

Disposal of Household Sharps

Sharps Usage

If there are specific instructions on the label, package, or package insert, please follow those instructions.

Safe Disposal Information

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Never place sharps in the trash, recycling, or green waste container. Never flush sharps down the drain or toilet.

Mail-Back Services

Med-Project Continued...

Mail-Back Services are available in your area. To order a Mail-Back package, visit the Mail-Back section of www.med-project.org. Sharps can be dangerous to people and pets if not disposed of safely. Sharps can cause injuries and/or spread infections that cause serious health conditions. These infections may include: Hepatitis B (HBV), Hepatitis C (HCV), and Human Immunodeficiency Virus (HIV). Safe sharps disposal is important whether you are at home, at work, at school, traveling, or in other public places such as hotels, parks, and restaurants. Pet owners who use needles to give medicine to their pets should follow the same sharps disposal guidelines used for humans.

Sharps Disposal Containers

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD". Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.

Do Not Reuse Sharps Disposal Containers

Proper Lawn Watering & Yard Waste Disposal Practices

Never blow grass clippings or lawn waste into the storm sewer system!
Bag it for the licensed waste haulers to transport or compost the waste into mulch.

Water the lawn during the early hours of the morning or late in the evening to maximize water absorption.

Set automatic sprinklers to only water as much as needed.

Avoid over-spray from sprinkler heads onto impervious surfaces like concrete.

Proper Animal Waste Management & Disposal Practices

- Always pick up pet waste
- Carry disposable bags on your walk
- Throw away pet waste
- Encourage others to pick up pet waste

Failure to pick up pet waste allows it to be carried by rainwater directly into our local water bodies

Improper disposal can also allow bacteria to wash into receiving waters

FAQs

Residential Food Waste Recycling Program

Am I required to participate?

Yes. This is a California law that requires all residents, multi-family tenants, and commercial businesses to participate in food waste recycling in order to comply with Senate Bill 1383.

Will plastic bags be supplied?

Customers will be required to use their own bags. Bags do not need to be compostable or biodegradable.

What is the benefit of recycling food waste?

Your recycling efforts contribute to the reduction of greenhouse gas emissions in landfilled organic waste. This includes methane, a greenhouse gas 80 times more potent than carbon dioxide.

I already backyard compost, do I have to participate?

We encourage you to continue backyard composting. Organic items not suitable for backyard compost can be recycled through this program.

Can I use my garbage disposal instead?

No need to change your current garbage disposal use. Food currently being discarded in your trash barrel should now be bagged and placed in your green waste barrel.

What items are acceptable?

Fruits, vegetables, meats, seafood, dairy, eggshells, bread, food scraps, food soiled paper, plate scrapings, and expired food.

What items are not acceptable?

Trash, styrofoam, liquids, glass, plastic, metal, diapers, pet waste, electronic waste, and hazardous waste.

BAG IT AND TRASH IT! — Steps and Tips —

WHY SHOULD I PICK UP?

-  Dog waste can infect children and adults with disease-causing bacteria and parasites.
-  Your dog can get infected from the waste of other dogs.
-  Dog waste can affect the quality of our rivers and oceans and make the water unsafe for swimming, drinking, or fishing.

Step 1: Keep a supply of bags tied to your dog leash.

Step 2: Bag the poop and tie the bag.

Step 3: Dispose of the tied bag properly by throwing it into a trash can.
